## OBJECTIVES OF SOUTHERN ILLINOIS UNIVERSITY

### TO EXALT BEAUTY

*In God,  
in nature, and  
in art;  
Teaching how to love the best  
but to keep the human touch;*

### TO ADVANCE LEARNING

*In all lines of truth  
wherever they may lead,  
Showing how to think  
rather than what to think,  
Assisting the powers  
of the mind  
In their self-development;*

### TO FORWARD IDEAS AND IDEALS

*In our democracy,  
Inspiring respect for others  
as for ourselves,  
Ever promoting freedom  
with responsibility;*

### TO BECOME A CENTER OF ORDER AND LIGHT

*That knowledge may lead  
to understanding  
And understanding  
to wisdom.*

## The University

SOUTHERN ILLINOIS UNIVERSITY was established in 1869 as Southern Illinois Normal University. The shortened name became official in 1947 by action of the state legislature.

In 1874 the first building on the campus at Carbondale was completed, financed by state-appropriated funds and contributions from citizens of Jackson County. In the fall of that year, the first regular academic year for the school, 150 students were enrolled. The student population has increased steadily and now exceeds 35,000.

For some years after its establishment, the University operated as a two-year normal school. In 1907 it became a four-year, degree-granting institution, though continuing its two-year course until 1936. In 1943, after a vigorous campaign led by President Roscoe Pulliam, the state legislature changed the institution, which had been in theory exclusively a teacher-training school, into a university, thereby taking official recognition of the great demand in the area for diversified training.

The action of the legislature led to establishing colleges of Education, Liberal Arts and Sciences, and Vocations and Professions, offering the Bachelor of Science in Education, Bachelor of Arts, and Bachelor of Science degrees. Graduate work was instituted in 1943 and the Graduate School was formally established in 1948. At this time it was authorized to grant the Master of Arts and Master of Science degrees in addition to the Master of Science in Education. In 1952 the Master of Fine Arts degree was added to the list, the Doctor of Philosophy in 1955, and in 1956 the Master of Music and the Master of Music Education.

The Divisions of Communications, Fine Arts, and Rural Studies were established in 1953, and in 1955 became the Schools of Communications, Fine Arts, and Agriculture, respectively. The College of Vocations and Professions was dissolved, and a School of Business was created in 1956. In 1957 the Department of Home Economics became the School of Home Economics. In 1959 the Department of Applied Science became the School of Applied Science, which was renamed in 1961 and in 1971 became the School of Engineering and Technology. Also in 1971,

the College of Communications and Fine Arts was created by merging the Schools of Communications and Fine Arts. The School of Medicine, established in 1969, will offer its first classes in June, 1972.

The growth of classes for adults and for those seeking technical training led to the establishment in 1953 of the Division of Technical and Adult Education, of which the Vocational-Technical Institute is a part. The Department of Nursing was established in 1955; subsequently, it has been transferred to Edwardsville.

The Community Development Institute was established in 1956. Labor, Latin American, and Rehabilitation Institutes were created in 1957, the Transportation Institute in 1960, and the Center for the Study of Crime, Delinquency, and Corrections in 1961. A Center for Vietnamese Studies and Programs was created in 1969. The International Services Division administers adviser and teaching teams in eight areas of the world.

In 1949 the Belleville Residence Center was established. Then, because of the growing demand for educational opportunities in the Madison-St. Clair counties area, the University established the Alton Residence Center and the East St. Louis Residence Center in 1957. In 1959 the Southwestern Illinois agencies were organized into a unit coordinate with the Carbondale Campus and named the Edwardsville Campus. On a 2,600-acre site near Edwardsville a new campus was constructed, with instruction beginning in 1965. The Carbondale Campus and the Edwardsville Campus were renamed in 1969 and are now Southern Illinois University at Carbondale and Southern Illinois University at Edwardsville.

### GEORGE S. COUNTS

Born in 1889 in Baldwin, Kansas, George S. Counts has served the world of education for fifty-seven years. Beginning his career in the public schools of Kansas, he has taught at various universities, including twenty-eight years at Teachers College, Columbia University, and since 1962 as Distinguished Visiting Professor at Southern Illinois University. In the field of Foundations of Education in general and in the specialty of Soviet Education in particular he has long been recognized nationally and internationally as one of the very greatest of scholars.

He is a noted lecturer and writer. He is the author of twenty-nine books and hundreds of magazine articles. With his classical and social science background he writes with rare clarity and insight and is perhaps the most quoted living person in American education. He has written over a long period of time but his books are as relevant today as when they were written. His deep insight into the technological world and its problems is reflected in his writings.

He has taught thousands of students. Many of them have occupied high positions of leadership in the United States. Many of his students from other countries have held high positions in the ministries of education, including the highest. His work has helped immeasurably to promote the cause of international education.

He is not merely a professor. He has been active on the social scene. He was editor of *The Social Frontier*. He served as President of the American Federation of Teachers, as a leader in the Civil Liberties Union, as a member of the Commission on Motion Pictures in Education, as New York State Chairman of the American Labor Party, and as New York Chairman of the Liberal Party. It was during his tenure as President of the American Federation of Teachers that he led the fight in expelling Communist unions from the Federation.

His honors include the Liberty and Justice Award from the American Library Association for his book, *The Challenge of Soviet Education*; membership in the Cleveland Conference; and membership in the National Academy of Education. His autobiography appears with ten other select and living educators in the current yearbook of the National Society for the Study of Education.

It is fortunate for Southern Illinois University that George S. Counts has been here during the past nine years. While here he has made major contributions in teaching and in research. His wise counsel has been invaluable in helping with doctoral dissertations. His name has been a factor in making the University better known and respected throughout the world.

## Academic Attire

All candidates for degrees and those who hold these degrees, including University officials and faculty and visiting dignitaries, are attired in traditional cap and gown. Representatives of American universities met in 1895 and agreed upon a standard style of academic attire for the various degrees. This Intercollegiate Code, revised in 1932 and again in 1959, is followed today by all American colleges and universities except for a few schools which continue to use the styles of England.

### CAPS

Candidates for degrees wear the regulation black mortarboard cap with tassel appropriate to the school or division from which they are being graduated, with the exception of those who already hold doctor's degrees, who are privileged to wear gold tassels.

The authorized list of tassels follows:

Baccalaureate and Associate Degrees

Education—Light Blue

Liberal Arts—White

Agriculture—Maize

Business—Sapphire Blue

Communications—Blue

Fine Arts—Brown

Music—Pink

Music Education—Light Blue

Home Economics—Maroon

Technology—Orange

Nursing—Apricot

VTI-Technology—Orange

VTI-Business—Sapphire Blue

VTI-Art—White

Master's Degrees

All fields—Black

Doctor of Philosophy—Gold

### GOWNS

The bachelor's gown has a closed front and long, pointed, open sleeves. The master's gown has either an open or closed front with extremely long, closed sleeves, open at the wrist; the end of the oblong sleeve is square, with an arc of a circle cut away just above the bottom. The doctor's gown may be worn open or closed. It has voluminous bell-shaped sleeves on which appear three velvet bars (usually black, but sometimes in the color of the subject area).

### HOODS

The master's hood is three and one-half feet long with a three-inch-wide velvet edging of the appropriate color.

The colors for those master's degrees granted by Southern Illinois University are:

Master of Arts—White

Master of Business Administration—

Sapphire Blue

Master of Fine Arts—Brown

Master of Music—Pink

Master of Music Education—Pink

Master of Science—Gold

Master of Science in Education—Gold

The lining is in color or colors of the institution granting the degree.

The doctor's hood is easily recognized by a four-inch width of velvet edging, the wide panels at either side, the greater length, and the full exposure of the lining. The colors of the edging most frequently seen are blue for philosophy, light blue for education, green for medicine, purple for laws, yellow for science and white for arts and letters. The colors of the lining are those of the school from which the degree is granted.

Below are listed a few schools and their colors from which faculty appearing in the academic procession have received degrees:

University of Alabama—Crimson and White

Arizona State University—Maroon and Gold

University of Arizona—National Red and Blue
